- GatsbyJS
- NextJS
- NodeJS
- SCSS
- CSS
- CSS Modules
- HTML5
- jQuery

Experience

Frontend Developer DMI - Pittsburgh, PA / Remote

August 2020 - Present

- Instrumental in replatforming the client's website from a legacy solution to ReactJS with Server-Side Rendering (SSR)
- Implemented Ratings and Reviews on products and locations within the client's site using GraphQL as the data layer
- Helped migrate the client's blog from Drupal to their newly replatformed site
- Integrated Adobe Experience Manager (AEM) component into the client's site to allow the client to make site changes in real time

eCommerce Frontend Developer WESCO - Pittsburgh, PA

June 2018 - August 2020

- Implemented ReactJS, a frontend development framework, into a large pre-existing legacy codebase. This process included writing custom Webpack configs, migrating from legacy build scripts and technology, and then the implementation of React components into server side rendered Java Server Pages (JSP)
- Lead frontend developer on team who participated in roadmapping, story pointing, and project delegation
- Introduced Typescript into the codebase to improve productivity and reduce bugs as well as features such as Product Families, Product Compare, Quotes, Google Analytics and many more in the frontend codebase

Experience

(Continued)

Frontend Developer January 2018 - June 2018 DICK'S Sporting Goods - Coraopolis, PA

- Took lead on large eCommerce initiatives which resulted in high dollar profits for the company. More details are available upon request
- Oversaw tasks of junior developers and was a resource of knowledge and assistance when needed

Associate Frontend Developer February 2017 - January 2018 DICK'S Sporting Goods - Coraopolis, PA

- Developed interactive pages and experiences that led customers through the checkout flow using technologies like HTML, SCSS, CSS, JavaScript, and jQuery
- Applied defined web programming standards and techniques to ensure efficient programming logic and data manipulation while working with cross-functional teams to develop design for static and dynamic web content

Web Developer June 2016 - February 2017 EZToUse.com - Altoona, PA

- Developed custom themes in WordPress for clients to easily market and advertise their business. Often, the custom theme allowed the client to easily manage their data. In addition, technologies like HTML, CSS, JavaScript, jQuery, MySQL, and PHP were used to build functional websites

Web Developer Intern March 2016 - May 2016 DICK'S Sporting Goods - Coraopolis, PA

- Worked on an internal intranet website with a small team of developers to implement new features and updates on a weekly basis. Technologies used were HTML, CSS, Javascript, and bootstrap for templating

IT Systems Service Desk Technician July 2015 - May 2016 DICK'S Sporting Goods - Coraopolis, PA

- Worked in a fast paced team environment, providing technical support and solutions to stores and employees across the United States. Additional tasks included troubleshooting technology and documenting solutions for future resolution
